IMPACT CENTER

Orchard: Africa Impact Centers serve our receiving partners through regular training, mentoring and equipping workshops. The Centers also host networking opportunities and workshops for giving partners. Impact Centers house our food & resource banks as well as provide workspaces for staff, local pastors and teachers.

Church leaders throughout South Africa are front-line workers in vulnerable communities. Facing a myriad of needs, these leaders are under-resourced. This is why Orchard: Africa exists — to equip, train and mentor church leaders, transforming them from Sunday preachers into effective, every-day community leaders, making a sustained and transforming impact across an entire generation.

BACKGROUND:

In 2019, Orchard: Africa opened their first Impact Center in Somerset to the east of Cape Town. A rented space was remodeled to provide a large group training center, open office area and conference room and a large distribution warehouse.

INITIATIVE SPECIFICS:
